2027 CALENDAR - ILLUSTRATIVE, NOT PAYROLL ADVICE

Biweekly Friday cycle A

Every 14 days, anchored to January 8, 2027. 26 mathematical dates in 2027. Cycle B also includes January 1 when counted backward from January 15.

These dates have NO bank-holiday or employer adjustments. Actual deposits can move across days or years. Do not assume an extra paycheck or extra annual income. Use your employer's confirmed payroll calendar.

Month	Unadjusted example dates	Count
January	8, 22	2
February	5, 19	2
March	5, 19	2
April	2, 16, 30	3
May	14, 28	2
June	11, 25	2
July	9, 23	2
August	6, 20	2
September	3, 17	2
October	1, 15, 29	3
November	12, 26	2
December	10, 24	2

Three-date months in this mathematical cycle: April, October.

The companion .ics file uses generic all-day events with no amounts or built-in alarms. Calendar-provider settings can add notifications. Review before importing.

Biweekly Friday cycle B

Every 14 days, anchored to January 15, 2027. 27 mathematical dates in 2027. Cycle B also includes January 1 when counted backward from January 15.

These dates have NO bank-holiday or employer adjustments. Actual deposits can move across days or years. Do not assume an extra paycheck or extra annual income. Use your employer's confirmed payroll calendar.

Month	Unadjusted example dates	Count
January	1, 15, 29	3
February	12, 26	2
March	12, 26	2
April	9, 23	2
May	7, 21	2
June	4, 18	2
July	2, 16, 30	3
August	13, 27	2
September	10, 24	2
October	8, 22	2
November	5, 19	2
December	3, 17, 31	3

Three-date months in this mathematical cycle: January, July, December.

USE THE RESOURCES PRIVATELY

Check the calendar before the cash

A third payday is a date pattern, not a reason to commit money before it arrives.

Choose the right file

Cycle A matches an unadjusted January 8, 2027 Friday payday. Cycle B matches an unadjusted January 15 payday and includes January 1. Neither is correct for every employer, weekly pay, semi-monthly pay, benefits, or irregular income.

Before importing

Create a separate optional calendar. Check several dates against official payroll information, including year boundaries and holidays. Edit or skip the examples if they differ. Do not import both cycles.

How to remove it

Delete the separate imported calendar or remove its events in your calendar app. Importing can create duplicates if repeated. Nothing is installed, synced, or scheduled by downloading these files.

Privacy

The files contain no income amounts, balances, account IDs, or customer details. Importing to a cloud calendar shares the generic events with that calendar provider. No information is sent to CashEnzo by the files.

Build a plan around actual timing

List the bills and everyday spending due before the next confirmed deposit. Compare the low point with the ending balance, and update when actual dates or amounts change.
